DETAILED ACTION

Allowable Subject Matter

Claims 1, 3, 4 and 8-25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 20 and 25.

Specifically regarding claim 1, Ikeda (5638223) teaches the state of the art of an optical objective.

But, Ikeda fails to explicitly teach a combination of all the claimed features including provided as said further external surfaces are two mutually parallel seats which lie at an angle of less than 30 degrees to a further optical axis, as claimed.

Specifically regarding claims 20 and 25, Ikeda (5638223) teaches the state of the art of an optical objective.

But, Ikeda fails to explicitly teach a combination of all the claimed features including provided as said further external surfaces are two mutually parallel seats which lie at an angle of less than 30 degrees to a further optical axis; and further comprising a fourth seat arranged at an angle of 45 degrees +/- 15 degrees to the first seat and to said two mutually parallel seats, and wherein arranged on said fourth seat is

a deflecting mirror for producing a third optical axis for a second housing structure, as claimed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
